

# Do you have a favorite author?

## Want to be first in line for their newest release?

Here's how adopting an author works:

1. Sign up for your favorite author, or choose one from our recommended list on the next page.
2. We set our ordering systems to automatically order the newest releases of that author
3. When the book comes in, we catalog and process it, and put a book plate in the front of the book saying that you have adopted this author.
4. We call you and you get to be the first patron to check it out!
5. When you pick up the book there will be an invoice inside with the price of the book.
6. You pay for the book either when you pick it up or return it.

This is a unique way of supporting our book budget and allows us to diversify our collection. We hope you'll consider adopting an author today!
